110 anon on lenin's article "incidents in balkans and persia," published 75 yrs ago. discusses reason why article was written and incidents in iran during constitution movt. there were very famous clergymen who led ppl's uprising against qajar shah while other clergymen, such as shaykh fazlollah nuri, formed pillaging groups to support qajar dynasty. therefore, even 75 yrs ago there were two types of religious ldrships in iran, some among first ranks of popular uprising while others supported shah's despotism. ussr considers imperialism common enemy of both socialism and of national independence of all countries, incl iran. 117 anon quoting french weekly on supply of weapons by israel to afghan counterrevs. since dra has always supported aspirations of palestinians this is not cause for amazement. what is surprising is that some arab countries, such as saudi arabia and egypt, are also providing assistance to afghan terrorist bands despite dra's support for arabs. israeli and u.s. backing for counterrevs is clear manifestation of u.s.-israeli strategic alliance. therefore, all those who are confronting plots of imperialism, zionism and reaction should unite. 118 report by unidentified radio moscow corr who begins by saying that truth about rev afghanistan and policy of dra govt has opened way for refugees to return home after having gone to pakistan, iran, and saudi arabia where they are living under dire conditions. most of these ppl want to return home and live in peace. however, their wish always meets obstacles created by officials of those countries. in continuation corr quotes an afghan refugee who returned home from pakistan and who speaks about living conditions in refugee camps there. he says that so-called aid given by west to refugees consists only of arms which they are forced to use against afghan ppl. as far as financial assistance is concerned, this is pocketed by counterrev gang ldrs. more and more afghans want to return home. but this is not so simple. ziaul haq's policy is controlled by usa, which is involved in an undeclared war against afghanistan. many u.s. advisers can be seen in pakistan. refugee is quoted to have said that he avoided participatin in brigands' bands for health reasons. he then went to iran and when he refused to fight on iran-iraq front, he was handed over to afghan counterrev groups. this, the refugee says, made him realize that he could return to his homeland. this is what he did and he is now working in afghanistan and is very happy.
